“ I am sorry for the passing of Peter!
I have great memories of playing ping pong after work that I will cherish. He taught me some tricks not about hitting the ball hard but with technique! xox

“ I am so sorry to hear of Peter's passing Anita. We had daily conversations in the work kitchen over tea time and he adored his family and often spoke of you. Over the years we have enjoyed homemade treats made by you Anita that Peter would bring to share with us at work on his birthday. He will always be fondly remembered as a gentle, kind and respectful human being.

“ Dear Anita and the family,

I am sorry to learn this. Peter and I did the same academic programme, Higher Diploma in Building Technology and Management (BTM) in the good old Polytechnic days, although he was two years senior than me.

Peter has always been my mentor in study and in faith ever since he served as the cell group leader during our study. After graduation, Peter established the first ever learned body "Association of Building Technology and Management" to advance professional knowledge and provide networking to graduates of BTM.

Peter did exceptionally well both academically and professionally. He was probably the first BTM graduate to transform from a builder to a building surveyor.

"Jesus said unto her, I am the resurrection, and the life: he that believeth in me, though he were dead, yet shall he live:"-- John 11:25 KJV Holy Bible

May Peter rest in peace and the Lord's comfort be with Peter's family members, in particular, Anita.

These photos are of him and Anita at one of the Social Club Christmas parties in happier times.

“ I shortly know him, when my son Razvan merg with his daugther Jenny, but I realizez that he was a clever and thoughtful person, who love his family very much. God have mercy of his soul and rest himin place.

*Some wrong words due to "artificial intelligence": my son Razvan
maried, not merge, rest him in peace, not himin place.
Sorry.*
