“ Happy 67th birthday, dad! Life has changed a lot with the new addition to the family but not a day goes by without you on my mind. Miss you, dad 🎂

“ Dear dad, you left us 3 years ago. It doesnt get any easier year after year but so much has happened over the last 3 years. Your grandson came to visit you yesterday. I know you would have been so excited to meet him if you were still here. Your legacy will forever live on.

*I miss you, dad.*

“Happy 65th Birthday, dad. I remember us wondering if you would make it to your 65th birthday back in 2021. Little did we know you would have passed away so much earlier. I miss you dearly and remember you on your special day.

“Happy Father's Day, dad. This is the second Father's Day without you and it makes me realise how much I took you for granted on every past Father's Day when you were still around. I miss you and think of you everyday. Yesterday was my 30th birthday and the thought of you not being able to celebrate with me made me really sad because I know you would have been really proud to see where life has taken me. Keep watching over us dad! I love you ❤️

“ It has been exactly a year since I saw you for the very last time, touched you and said my final goodbye. A lot has happened throughout the past year but not a day has gone by without me thinking about you. I love you and really miss you ☐ I am sure you are watching over us everyday 😊

“ Today marks 6 months since you left this world having suffered and gone through a tremendous amount of struggles. Life will never be the same again and Christmas this year will definitely not be complete without you around. I love you and I miss you dearly.
