“ 我们广安二中同学怀着沉重的心情，悼念我们亲爱的云信同学。一九七九年你是我们班年龄最小的同学。当年高考，你以优异的成绩考上了重庆大学电子工程系。从此，你离开了梦魂牵绕的渠江，离开了云顶山的中学宿舍，离开了那个生你养你的故乡。你从此越走越远，越飞越高。离开故国，远渡重洋，在澳洲获得硕士和博士学位，在通讯领域取得了傲人的学术成就。你是一个知识渊博、聪明勤奋的人，在单位你是一个优秀的工程师，技术权威；在家里，你是一个好丈夫，好父亲；在社区，你是一个乐于助人的好邻居。你累了，你走了，舍不得你的妻儿，放不下亲人朋友。天高云淡，路漫漫其修远兮，你的音容笑貌将永远留在我们心间。云淡风轻，你在天国不再有痛苦，你回到天家，安息吧。你的高七九同学唐愉拉，于美国得克萨斯州。

“ I was saddened to hear that Jeff had passed away, but relieved for both of you that the painful struggle had ended. Jeff was a great person and a cherished friend. It was a joy to do volunteering work in the presence of Jeff over 10 years at the Chinese Parents Association – Children with Disabilities Inc. . We will never forget the warmth his smile brought to organisation. I never heard an ill word spoken of him. He was kind, compassionate, and a true gentleman. May the memories of his wonderful personality and many contributions be celebrated by all.

Deeply grieved to hear about the loss of such a loving soul.

“*Last time I met Yun Xin was at Zhang Xing' house. It was Christmas time in 2019 and it was the first time I went back to Sydney in more than ten years. Yun Xin was, like always, so witty, funny, friendly, and mentally strong. The gathering was such a great reunion.*

I know Yun Xin since he was a PhD student at Sydney University, and I have a chance working closely with him as colleague and as very good friend at Motorola Australian Research Center. We shared good time and not so good time, together, for many years. Yun Xin's intelligence, not only in academia, but also in many aspects in life, always impressed me a lot. He brought so many laughter to his friends.

Oh, my God, I enjoy his witty mind and miss his laughter, and I am deeply sorrow to see he is no longer with us.

May you rest in peace, my dear friend Yun Xin.

“ Dr Yunxin was a treasured family friend that my family and I spent many holidays and outings with. My dad Suhuai and mum Jiaming have known him since their uni days: here are some photos from then. He will be very missed by us all.

“ I first met Yunxin at an interview of my application for a research engineer position with Motorola Australian Research Centre in June 1998, one year after I came to Australia. His humor and friendly personality made me relaxed during the interview, as I was very nervous at the beginning with my poor spoken English. I successfully passed it and became one of his communications team member. Under his leadership, our team had a great success. Our achievements include a significant number of patents and publications on WLAN/WPAN and UWB technologies as well as the inclusion of the CPM decoding software in Motorola's product chipset.

The period of the four years with him at Motorola was one of my best professional experiences. The Li-Huang model used for wireless channel modelling was inspired by his profound knowledge and enthusiasm in mobile communications. The technology has been remained in the literature, but one of its creator has left us.

Yunxin was also one of our best family friends. We often had family gatherings at each other's houses. I was so impressed by his family's hospitality and generosity. One dish we learnt from his wife had since become our favorable one which had been used for us to entertain our guests at our dinner table. My son still remembers that he enjoyed playing cards with Uncle Yunxin at a hotel in Taipei when he was only 10 years old. His daughter Sarah also appeared in a photo with my family and people often thought that she was our daughter. We of course would love to have such a beautiful and smart daughter if she was.

Yunxin, may your gentle soul rest in peace. You will be missed forever in our hearts.
